*) Excluding applications

Applications

Philips PC Cameras come with a set of full featured Windows applications, all the necessary installation software and a TWAIN compatible interface.

- **Off the desk scanning**
  *Select parts of a paper document (charts, paragraphs, photos) and easily drop them into an electronic document!
  The Xerox PageCam software contains an Optical Character Recognition (OCR) program. Simply select the pictures, texts or charts you want and drag them into your favourite applications as ready-to-edit text or graphics data.*

- **Create your own video Email**
  *Easily create and send videomail (video email) and digital images with Philips Videomail software, featuring up to 100x file compression. All you need to add is the Internet.
  Any Windows PC can easily receive and view Philips Videomail. Just click and play.*

- **Photo editing**
  Ulead Photo Express provides the perfect balance of professionally designed templates and easy to use editing tools for editing your photos and images.

- **Microsoft NetMeeting**
  NetMeeting lets you communicate with family and friends over the Internet. NetMeeting's video, audio, and data conferencing are all based on industry standards.
