Safety Precautions

The following diagrams illustrate the precautions to be taken when using your DVD-ROM drive.

* Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

You must not use the drive in any manner other than that specified in this guide.

CAUTION Do not attempt to repair the DVD-ROM drive yourself. Contact your dealer or local SAMSUNG representative for all repairs. If you make any adjustments or perform any operations other than those specified in this guide, you run the risk of exposure to hazardous radiation.

WARRANTY Please refer to the Samsung limited warranty statements.

- Precautions 1. To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.
2. Always check each disc for cracks before using it.
3. Do not use poor quality discs.
4. Avoid exposing your eyes or skin to direct or scattered radiation.

Your DVD-ROM Drive

- 1. Connector for stereo headphones with a 3.6 mm stereo mini-jack
2. Headphone volume control
3. Disc compartment (the compartment opens and closes automatically when you press the Eject button)
4. Emergency eject hole (if the compartment does not open when you press the Eject button, power off the computer, insert a pin or unfolded paper clip in the hole and push firmly)
5. Indicator light (when it is green, a disc is being read)
6. Eject button

- 1. Two-pin digital audio output terminal for use with a sound or MPEG card supporting digital audio features
2. Four-pin sound output terminal for use with a sound card
3. Master/slave select terminal
4. 40-pin host IDE interface connector
5. 4-pin power terminal

Using the DVD-ROM Drive

To play audio or video CDs in your DVD-ROM drive, proceed as follows.

- 1 Push the power button and boot the computer.
2 After booting the computer, open the disc compartment by pressing the Eject button.
3 Insert the disc (CD/DVD) with the label on the disc facing upwards and close the disc compartment by pressing the Eject button.
4 Click on the Device Manager tab.

Playing Audio CDs Run the CD player supplied with Windows or your sound card. You can listen to the CD by connecting headphones to the appropriate connector. If you have installed the appropriate player, such as Microsoft Windows Media Player, you can adjust the volume using the headphone volume control on the drive front panel.

Playing Video CDs Set up and run the SOFT MPEG program.

Storing and Cleaning Your Discs

To ensure a long service life for your discs and drive, follow the precautions below when storing and cleaning your discs.

- 1 Do not place a disc in direct sunlight.
2 Store a disc vertically in a well-ventilated and stable location.
3 Do not write or attach a label on a disc.
4 Do not drop a disc or place heavy objects on it.
5 Do not touch the surface of a disc; hold it by the edges.
6 To clean a disc, polish lightly from the inside of the disc to the outside with a soft cotton cloth.
7 Do not leave the disc compartment open when you are not using it.

Upgrading the Firmware Flash Memory

The product firmware can be upgraded by downloading the updated file from the following Web site:
